Comments:

Dear DNREC Officials, As a life long resident of Delaware city and a direct neighbor within 300 feet of this project, I have not received one official notice of the matter. I feel every single home that borders the Branch canal should have been notified of such permit applications. I am requesting a Section 106 review of the FDRPC's plan described in the Subaqueous Lands Permit application. This will provide the comprehensive historic, cultural, and environmental review that the public and this historical landmark deserve. The Delaware City Branch canal is an integral part of the character and historical significance of the city, therefore, in addition to the Section 106 review, I request that final permission for the go-forward plan be issued by the Delaware City Historic Preservation Commission and Delaware City Council. Sincerely, Katie Woodall
